

**THE 24<sup>TH</sup> FESTIVAL PHOTO MONTIER IS POSTPONED IN 2021**  
**- FESTIVAL INTERNATIONAL DE LA PHOTO ANIMALIÈRE ET DE NATURE**  
**MONTIER EN DER – HAUTE-MARNE – GRAND EST**

The current health situation requiring large adjustments for the 24<sup>th</sup> edition of the Festival Photo Montier, as well as the very uncertain context until the opening-day November 19, will not allow the festival to take place according to our values of meetings and sharing, conviviality, exchanges and debates.

That's why, it's with a heavy heart, after long weeks of reflections and analysis of the different scenarios around the possibilities of maintaining our event in good conditions, and following the constraints imposed by the sub-Prefectures, that the executive Board of the AFPAN « l'Or Vert » (Association du Festival Photo Animalière et de Nature) has taken the decision to postpone the 24<sup>th</sup> edition to 18, 19, 20 and 21 November 2021.

This is obviously a difficult but wise decision, because in the current state of the situation, the priority is to ensure the long-term existence of the festival for the coming years and to preserve the volunteer-employee team structure and the economic model of the festival that have proven itself.

We would like to thank the volunteers and the talented employee-team who have given so much to carry out this year's programming and edition.

We thank, of course, our funders for their support and understanding, our partners, exhibitors, photographers, associations, sponsors, local partners, the medias that are by our side all over the year.

The Executive Board, the employee-team and the volunteers are more than ever motivated and animated by nature photography and the preservation of the environment. We already invite you to join us in 2021 for a Montier Photo Festival 2021 to meet your expectations, in good conditions and in sharing!

See you next year from 18 to 21 November 2021!

*The team of the Montier Photo Festival*
